Updated: Oct 02, 2018 11:14 AM EDT

Dr. Fred Abeles was happy to join Daytime to talk about advancements in the battle against headaches and TMJ. He's a pioneer in the field of chronic pain and one of the most sought after TMJ Specialists in the world. He says he's very aware of the desire for people to use prescription drugs, but he says there is another alternative. Dr. Abeles describes how the MLS Laser works. His Amazon best-selling book, *Break Away – The New Method for Treating Chronic Headaches, Migraines and TMJ Without Medication*, is available on Amazon. 100% of Dr. Abeles' proceeds donated to charity.
