If you're over the age of 30 and have rotator cuff problems, sharp or shooting pains, or arthritis, there is hope. A new treatment is helping patients increase shoulder strength, improve motion, and relieve shoulder pain.

Finally, you can be pain free again - even if you've got the most excruciating shoulder pain you have ever felt.

Does your shoulder pain build up when you move it wrong or is it a sudden sharp pain shooting from your neck into your arm?

Do you have difficulty just washing your hair or even scratching your back? Have you had to give up normal activities because of your shoulder pain?

My name is Dr. Robert Oliveri, owner of Oliveri Chiropractic. As a Board Certified Chiropractic Orthopedist, I've seen hundreds of people with shoulder pain, frozen shoulder and rotator cuff problems leave the office pain free.

If you are suffering from any of these problems, a new treatment in medical technology may completely eliminate your pain.

Finally, you have an option other than drugs and surgery.

Our State of the Art M6 Cold Laser Therapy, is having a profound affect on patients suffering with shoulder pain. Unlike the cutting type of laser seen in movies and used in medical procedures, the cold laser penetrates the surface of the skin with no heating effect or damage.

Cold laser therapy has been tested for 40 years, had over 2000 papers published on it and been shown to aid in damaged tissue regeneration, decrease inflammation, relieve pain and boost the immune system. This means that there is a good chance cold laser therapy could be your shoulder pain solution, allowing you to live a more active lifestyle.

Professional sports teams in the NFL, NBA, NHL, PGA, MLB and the U.S. Olympic Team rely upon cold laser therapy to treat their sports-related injuries. These guys use the cold laser for one reason only... it promotes rapid healing of the injured tissues.

"In a short time I went from having pain almost every day to not having pain. The pain is gone. I'm able to move my arm straight up and touch my back. It's really been effective." - Joe

"I'm feeling great from where I came. Whatever you're doing is working. I don't have that excruciating pain that was limiting my mobility and draining my energy. I'm amazed. I would recommend it to anyone if they're having the shoulder pains that I've been having." - Jo

Could this non-invasive, natural treatment be the answer to your shoulder pain?

I'm running a very special offer where you can find out if you are a candidate for cold laser therapy.

Just call by August 4, 2015 and for the cost of your copay here's what you'll get:

- An in-depth consultation about your shoulder where I will listen...really listen.
A detailed neuromuscular skeletal examination including a chiropractic, orthopedic and neurological evaluation.
An x-ray evaluation of your chief area of complaint.
A thorough analysis of your exam and x-ray or MRI findings so we can start mapping out a plan to being pain free.
PLUS 1 FREE Visit to "Test Drive" the NEW M6 Laser!

I'll answer all your most probing questions about the cold laser and what it can do for you. The appointment will not take long at all and you won't be sitting in a waiting room all day either.

To take me up on this special offer, you must call by August 4, 2015.

Call anytime between the hours of 8 a.m. and 6 p.m. Mon., Wed. or Thur. and between 8 a.m. and noon Tues. and Fri. Tell the receptionist you'd like to come in for the Special Shoulder Evaluation before March 31, 2015.

Look, you have very little to risk and a lot to gain. Call today and we can get started with your consultation, exam and x-rays as soon as there's an opening in the schedule.

P.S. Pain in your shoulder isn't just a 'sign of old age'. If that was true all 360 joints in your body would hurt since you're whole body is the same age.

Pain is your body's way of telling you something is wrong. Finding the problem and fixing it has got to be top priority!

Call today: (609) 770-2117. Visit ZapShoulderPain.com for more info and to see our video.
