If you're over the age of 30 and have rotator cuff problems, sharp or shooting pains, or arthritis, there is hope. A new treatment is helping patients increase shoulder strength, improve motion, and eliminate shoulder pain once and for all. Finally, you can be pain free again – even if you've got the most excruciating shoulder pain you have ever felt.

Does your shoulder pain build up when you move it wrong or is it a sudden sharp pain shooting from your neck into your arm?

Do you have difficulty just washing your hair or even scratching your back? Have you had to give up normal activities because of your shoulder pain?

Nothing's worse than feeling great mentally, but physically feeling held back from life because your shoulder hurts and the pain just won't go away!

My name is Dr. Robert Olivieri, owner of Olivieri Chiropractic. As a Board Certified Chiropractic Orthopedist, I've seen hundreds of people with shoulder pain, frozen shoulder and rotator cuff problems leave the office pain free.

If you are suffering from any of these problems, a new treatment in medical technology may completely eliminate your pain.

Finally, you have an option other than drugs and surgery.

Our State of the Art M6 Cold Laser Therapy, is having a profound affect on patients suffering with shoulder pain. Unlike the cutting type of laser seen in movies and used in medical procedures, the cold laser penetrates the surface of the skin with no heating effect or damage.

Cold laser therapy has been tested for 40 years, had over 2000 papers published on it and been shown to aid in damaged tissue regeneration, decrease inflammation, relieve pain and boost the immune system. This means that there is a good chance cold laser therapy could be your shoulder pain solution, allowing you to live a more active lifestyle.

Professional sports teams in the NFL, NBA, NHL, PGA, MLB and the U.S. Olympic Team rely upon cold laser therapy to treat their sports-related injuries. These guys use the cold laser for one reason only...it promotes rapid healing of the injured tissues.

Could this non-invasive, natural treatment be the answer to your shoulder pain?

I'm running a very special offer where you can find out if you are a candidate for cold laser therapy.

Just call before March 31, 2015 and for \$47 (or your copay) here's what you'll get:

- An in-depth consultation about your shoulder where I will listen...really listen.
- A detailed neuromuscular skeletal examination including a chiropractic, orthopedic and neurological evaluation.

- An x-ray evaluation of your chief area of complaint.
- A thorough analysis of your exam and x-ray or MRI findings so we can start mapping out a plan to being pain free.
- PLUS 1 FREE Visit to "Test Drive" the NEW M6 Laser!

I'll answer all your most probing questions about the cold laser and what it can do for you. The appointment will not take long at all and you won't be sitting in a waiting room all day either.

To take me up on this special offer, you must call (609) 770-2117 before March 31, 2015.

Since the FDA cleared the first cold laser for treatment of shoulder pain in 2002, there has been only one warning – don't shine the laser in the eyes. Of course at our office the laser is never anywhere near your eyes, and we'll give you a comfortable pair of goggles for safety.

Call anytime between the hours of 8 a.m. and 6 p.m. Mon., Wed. or Thur. and between 8 a.m. and noon Tues. and Fri. Tell the receptionist you'd like to come in for the Special Shoulder Evaluation before March 31, 2015.

Look, you have very little to risk and a lot to gain. Call today and we can get started with your consultation, exam and x-rays as soon as there's an opening in the schedule. Our office is called Olivieri Chiropractic and you can find us at 1501 Route 47 in Rio Grande.

Dr. Robert Olivieri, D.C., Board Certified Chiropractic Orthopedist Phone: (609) 770-2117.

P.S. Pain in your shoulder isn't just a 'sign of old age'. If that was true all 360 joints in your body would hurt since you're whole body is the same age.

Pain is your body's way of telling you something is wrong. Finding the problem and fixing it has got to be top priority!

Call today: (609) 770-2117. Visit <http://zapshoulderpain.com/> for more info.
